RE: Door Lock Policy

GOAL is to maintain the integrity of the door and frame by minimizing the hardware changes and to maintain a uniform appearance.

The association purchased Kwikset Halo for each entry door. Some of these locks have not been consistently online. Therefore, Owners may replace these locks following these guidelines.

1. The replacement deadbolt must fit the existing hole. There can be **no** drilling of the door. If possible, use the existing strike plate in the frame.
2. The Kwikset lock **must** be returned to the manager. (Wendy Blevins)
3. A key **and** code must be provided to the manager for maintenance and emergency entry.
